CAREER OBJECTIVE

To secure a challenging role in the tech industry where I can apply my skills in software development and problem-solving, contribute effectively to real-world projects, and build a successful career in technology.

EDUCATION

United College of Engineering and Research (UCER) <i>Bachelor of Technology, Computer Science and Engineering —</i> St. Atulanand Residential Academy (SARA) <i>12th Standard, CBSE</i>	Prayagraj, India 2022-2026
St. Atulanand Residential Academy (SARA) <i>10th Standard, CBSE</i>	Varanasi, India 2020

INTERNSHIPS & TRAINING

AVNV Infotech Pvt. Ltd. <i>Data Science & Machine Learning Intern</i> – Studied core concepts of Data Science and Machine Learning and developed practical applications on real-world datasets.	Jaipur, India <i>July 2025 – August 2025</i>
--	---

MNIT

Artificial Intelligence – Studied about Artificial intelligence.	Prayagraj, India April 2026 - MAY 2026
---	---

PROJECTS

Phishing Detection System | Python, Flask, HTML/CSS

- Developed a machine learning-based system to classify and identify malicious URLs through feature extraction and predictive modeling.
- Built a Flask REST API to serve the trained model, integrated with a responsive HTML/CSS frontend for real-time URL scanning.

Text Summarization System | Python, Transformers

- Designed an NLP application to extract and summarize key information from large text documents. – Used HuggingFace Transformers for abstractive summarization and NLTK for tokenization and text preprocessing.

TECHNICAL SKILLS

Languages: C, Python, HTML, CSS
Databases: MySQL
Core Concepts: problem Solving
Soft Skills: Leadership, Teamwork, Adaptability

CERTIFICATIONS

Java Programming <i>Completed a certification course in core Java programming concepts</i>	UCER 2023
